

BISBEE DAILY REVIEW.

VOLUME V

BISBEE, ARIZONA, TUESDAY MORNING, MAY 13, 1902

NUMBER 304

The Copper Queen Store.

A. O. U. W. Emblems

Pins, buttons and charms. Three sizes of buttons, \$1.00, \$1.50 and \$2.00. Three sizes of pins—a shield enameled in red, white and blue, A. O. U. W. across face, on a gold anchor—\$1.25, \$1.75 and \$2.00. Charms \$7.50 and \$8.00.

More New Shirt Waists

White ones among them. Two styles at \$1.50 and \$2.25 each are unusually good. Both made with insertion and tucked yokes—but they are made differently from any we've had.

White piques at \$2.50 each—very stylish and plain. Pique waists should be made plain—but not all pique waists possess the right touch of style.

The most attractive waists of the lot are those for evening wear.

Fine mull, with tucks and valenciennes lace and insertion, rather low neck and short sleeves.

Colors are nile, pink, white and champagne, price, \$3.75.

A soft white mull with black dots is \$2.50.

A waist of lace striped gingham, with silk spots—colors, nile, pink and blue—is \$3.00.

You'll have to see our shirt waist stock often if you would see all the new things.

Black Silk Grenadines

Half a dozen dress lengths—no two patterns alike. 1.75 a yard.

Happened to find importer with just these few lengths on hand, else price would be 2.00 a yard.

Well, Boys! There's Something Doing

Skinner has sold out to THE HABERDASHERS, Schwartz Bro's & Speers

Who will conduct the business in a first class manner, with the view of selling the BEST there is in GENTS FURNISHINGS, SHOES, HATS

Remember THE HABERDASHERS are Headquarters.

E. and W. collars and cuffs. Wilson Bro's Furnishings

BRUPHY TRANSFER COMPANY

Goods and Baggage Stored Telephone 123.
Freight and Express Delivered
to any part of the city.

The New England Kitchen!

Be Advised of These Facts

Remember that we are now serving Ice Cream daily. This is not the cheap inferior grade of Ice Cream generally served in restaurants. But is made by a competent chef from pure cream, which we receive daily by express and is equal in quality to any in the world. Strawberries and fruit every day.

AUTO LINE TO NACO

AUTO LINE.
Wm. Price is reported to have gone to New York City to purchase two steam autos, each to carry twelve persons. They will run between Bisbee and Naco.

Wm. Price left this city last Saturday with New York his destination, and friends say that he has gone to purchase two steam automobiles.

The automobiles are to be run between this city and Naco, and will be used to carry passengers. They are each to have a seating capacity of twelve persons, besides room for baggage and light express.

Before going Mr. Price stated in Dan Hankin's store his intention, and that inside of six months he would have the line fully equipped for business. He did not state whether or others are interested with him in the deal though he is thought to have at least one partner.

Price is interested in mining deals with George Dunn, they recently having secured control of valuable mining property near Magdalena. Sonora. He is well known in Southern Arizona, and has been engaged in the mining business for several years.

Last night Mr. Dunn was asked if he knew anything about the proposed automobile line to Naco, and gave it as his opinion that there is nothing in it. He stated that as far as he knew at the present time, Price went to New York for the purpose of closing the sale of some Colorado mining property.

Of several lines into Naco, that of Mr. Price looks the most probable.

FELL BACKWARD.

Oscar Totton Loses His Balance at Top of Bank.

Oscar Totton had a peculiar experience Sunday afternoon that might have resulted more seriously. He fell down a bank eleven feet high and met with injuries no more than a few slight bruises.

Totton was hunting with a small caliber rifle, and had just reached the top of a bank when he became dizzy, and losing his foothold fell backward.

A companion who was with Totton took him to the ice plant, where he recovered his senses. Mr. Totton says his memory is a blank from the time he became dizzy until he came to at the ice plant.

In falling Totton struck on his head and shoulder. The side of his face, scalp and shoulder was badly bruised, and will be painful for several days.

TO CONSIDER PURCHASE.

(Afternoon Press Report)
Richmond, Va., May 12.—Stockholders of the Atlantic Coast Line Railway company assembled here today for a special meeting. The purpose of the meeting is to have stockholders consider and act on the proposition for the merger plant system with the Atlantic Coast line.

NEW SOCIETY DRAMA.

New York, May 12.—Foremost among the dramatic novelties of the week is "Hearst Adame," which had its premier production tonight at the Garrick theater. The piece is from the pen of Genevieve G. Haines and deals with present-day society life in New York City.

STICKS HIS PICK IN DEAD BLAST

Anton Koff, a Slavonian miner, drove a pick yesterday morning into a blast that had failed to go off. It exploded and the sight of both eyes destroyed.

The accident happened about 10:30 o'clock in the 500-foot level of the Holbrook shaft. Several other miners were working about twenty feet away but escaped without injury.

Before Koff went to work he was notified to be careful about working in the vicinity of the blast. He talked about the matter with other miners before he went to work.

Koff deliberately walked up to the blast and drove his pick into it. It exploded immediately, throwing the miner on his back. Fine particles of dust struck him in the face, and several penetrated his eyes. His face is badly hurt by small rocks.

Koff taken to the company hospital, where physicians dressed his wounds. They found that the sight in both of his eyes destroyed. He will be laid up for several days.

Last night Superintendent Clawson stated that Koff was aware of the blast. It is the custom of the mine bosses to report to the succeeding bosses each unexploded blast. This prevents miners from accidentally running onto blasts with disastrous results.

EMIL LINDTHEL FATALLY STABBED LAST NIGHT BY A MEXICAN

A few minutes after 11 o'clock last night Emil Lindthel yesterday stabbed in the rear of H. Kreimer's barber shop on Brewery avenue. The deed was committed by a Mexican who is now in jail.

The first warning that a tragedy had been committed was a loud outcry by Lindthel that he had been stabbed. He yelled for those near to catch a Mexican claiming that he had done the deed.

Several bystanders rushed from in front of the Brewery saloon, and Jack Wikstrom caught the Mexican pointed out by the wounded man. Friends rushed to Lindthel's assistance, and he was taken inside the saloon.

The Mexican was taken before him and Lindthel stated positively that he was the man who had made the fatal thrust. Several other Mexicans were searched, but allowed to go. Officer Overlock placed the Mexican under arrest and he was taken at once to the city jail.

The wounded man was taken to a booth in the rear of the saloon and laid on the floor. He was able to talk, but as soon as his clothes were torn from his breast it was seen that a knife thrust had been made on the left side just below the collar bone.

In a few moments his breast and clothes were saturated with blood, and he gradually grew weaker. Lindthel made a request to be turned on his side, and when this was done blood began to flow from his mouth.

In a few moments the man was dead. Dr. Edmondson came as soon as he could be summoned, but arrived too late to be of any service. He stated

that the knife had severed one of the arteries leading to the heart, and that death was caused by inward bleeding.

As soon as Lindthel was dead Justice Williams arrived and summoned the following jury to serve at the inquest: W. J. Nemick, W. P. Jones, John Brannon, A. T. Weaver, Wm. Beck, and Wm. Horn. They viewed the remains, and will meet this morning to arrive at a verdict.

Then began a search for the knife with which the crime had been committed. A drop of blood was found on a board near the steps leading up to the porch of the Dubacher building at the north end.

The blood lead to the Brewery saloon. The alley and boxes, or any place in which a knife might be secreted, were carefully searched. After half an hour's careful scrutiny of the surroundings, Officer Howe found the knife just under the corral fence east of E. G. Ord's plumbing house.

It was an ordinary butcher knife that had been carefully worked down to a thin sharp blade, and was covered from point to hilt with blood. It was found about ten yards from where the tragedy occurred.

Shortly after the Mexican arrested was taken to jail an officer went to his cell and examined his hands. He found one of them covered with blood that was hardly yet dry.

About this time threats were made of lynching, and had any one volunteered to act as a leader, the crowd would have gone to the jail, taken out the Mexican and strung him up to the nearest pole. For an hour Lynch talk was kept up, but about 1 o'clock

this morning it had subsided.

At one time there was a large crowd gathered around a Mexican thought to have been with the alleged murderer. He was carefully searched for weapons, and some wanted to take him out and lynch him for being in all probability an accomplice.

Numerous theories are advanced as to what might have caused the stabbing. One is that Lindthel refused the Mexican a glass of beer, and that the latter swore revenge, which he took in a bloody manner.

Both of the principal actors in the tragedy came up yesterday from Cananea, where the dead man spent a few days working in a barber shop. They may have had trouble there, though no one here last night was able to throw any light on the affair.

Lindthel came to this city about the months ago from Bakersfield, Calif., and was employed in the barber shop on Brewery avenue, owned by H. Kreimer. He quit a short time ago. Lindthel came to this city about three days yesterday.

This morning the dead man was to go to Tucson, where he had a position in one of the barber shops there waiting for him. He was around town before the stabbing, and was seen in several of the saloons, though did not drink heavily.

The deceased is about thirty-years of age, and was considered a good workman at his trade. He weighed about 170 pounds, was light complexioned, and wore a mustache. He was of German descent.

At a late hour this morning the talk of lynching was revived, but subsided shortly afterward.

IT IS NOT EXCLUSIVE

City Attorney Miller claims that those representing the South Bisbee Copper Mining company were not granted an exclusive contract or franchise. A. B. Cass, one of the directors of the company made a statement to that effect last Saturday evening.

Coming from Mr. Cass the information that the Bisbee West people could keep others from selling water in this city, created a mild sensation among the city council members. They had all considered the franchise carefully and are confident that no clause had been permitted to creep in that would injure the city in any way.

Local attorneys are and have been under the impression that this city could not grant an exclusive franchise. They expressed surprise yesterday that Mr. Cass should make a statement of that kind.

Yesterday afternoon the city attorney gave out the following statement for publication:

"Your article in Sunday's edition of the Review wherein you state that A. B. Cass claimed that his company did not have a franchise with water, but that it had a contract, and an exclusive one, is very misleading.

"Every franchise granted by a municipality is a contract when accepted by the grantee, and such a contract like all others is always to be construed in the light of the law.

"As the courts sometimes express it, the law is read into and forms a part of every contract. If the city council had in express terms made a contract or franchise, giving the grantees an exclusive right to supply the city of Bisbee with water, the grantees would not have an exclusive franchise.

"The organic law of the territory puts it out of the power of even the legislature, much less the city, to grant by contract or otherwise any exclusive franchise, privilege or immunity."

RELIEF FOR SUFFERERS.

Washington, May 12.—The house today passed by an overwhelming vote, the bill granting \$200,000 dollars for the relief of the sufferers in the great calamity in the West Indies. The bill was a substitute for the relief measure passed by the senate and followed the receipt of a message from the president, setting forth the magnitude of the calamity and urging an appropriation of \$500,000. A special meeting of the appropriation committee was held to facilitate the action on the bill and it was reported to the house within a short time after the receipt of the president's message. Hemenway, acting chairman of the appropriations committee, explained that the amount was limited to \$200,000 owing to the fact that large private contributions were being made. The discussion was brief. Underwood of Alabama was the only one to speak in opposition. The bill was passed by 196 to 9. The rest of the day was de-

voted to business of District of Columbia.

ARIZONA MATTERS AT WASHINGTON.

(Exclusive Dispatch)
Washington, May 12.—D. B. Head and E. Wilber, of Phoenix, appeared before the senate committee on public lands today in behalf of the house bill authorizing Maricopa county to issue bonds for the construction of dams and reservoirs. No action was taken by the committee.

TO CONSIDER PURCHASE.

Richmond, Va., May 12.—Stockholders of the Atlantic Coast Line railway company assembled here today for a special meeting. The purpose of the meeting is to have the stockholders consider and act on the proposition for the merger of the Plant System with the Atlantic coast line.

STRIKE FOR MORE WAGES IS BEGUN

Philadelphia, May 12.—Mine workers throughout the entire anthracite coal region to the number of 140,000 today began a struggle for increased wages and shorter hours.

Never in the history of the coal mining regions has the tie-up been so complete, not one of 257 collieries in the territory being in operation.

Absolute quiet prevailed everywhere today. A general convention of delegates is to be held at Hazelton on Wednesday.

SHOT FIRED SUNDAY NIGHT

About 10 o'clock Sunday night a mysterious shot was fired in the rear of the postoffice that is still puzzling the officers.

Officer Jennings was in Shea's saloon and hearing the shot went out to investigate. He found several who had heard the shot but none who had seen it.

The shot was plainly heard by several in the vicinity, and each one located it in about the same place. One claimed to have heard loud talking just before the shot was fired. He stated that the language used was Mexican.

Officer Jennings after searching the neighborhood, stated that he believed the shot had been fired by a Mexican and might have been either in a quarrel, or as a drunken trick to create excitement.

It was in this same locality a few nights ago that a watch was stolen from a man named Meyers. He claims that he grappled with the thief who rolled him over a bank. Thus far no trace has been found of the missing watch.

The robbery is laid to a Mexican, though Meyers is unable to give a description of the man who is alleged to have taken his timepiece.

APPOINTMENT FOR MOSSMAN

Burton C. Mossman, captain of the Arizona rangers, has been appointed a deputy United States field marshal of New Mexico. The oath of office was taken before Justice Williams Sturday.

The appointment is made by C. M. Foraker, United States marshal of New Mexico, in recognition of the valuable services rendered New Mexico officers by Captain Mossman and his corps of rangers.

Captain Mossman has also been given the privilege of naming one of his rangers to be made a deputy marshal for New Mexico, and has named Lieutenant Graham for the place. Graham is now in the northern part of the territory, and as soon as he returns to this city will be sworn in.

"This appointment," said Captain Mossman yesterday, "affords us the power to make arrests in New Mexico, and to be upheld by the authorities there in any action we may take in the course of our duty."

"The appointments were made in recognition of work recently done by the rangers. We captured outlaws who had drifted into Arizona from New Mexico, and drove one back so that the officers could get him."

"After this when giving chase to outlaws who try to escape us by crossing the line into New Mexico, either Lieutenant Graham or myself can follow them up and make arrests."

Just now the rangers are working quietly, though they are not on the trail of fugitives from justice. The boys are ever on the alert for bad men and should any of them come out into the open they will be given a run for their money.

RED MEN'S BIG POW-WOW.

(Special Dispatch)
Springfield, O., May 12.—All trails lead to Springfield today and the city has filled up with Red Men from all parts of Ohio to come to attend the golden jubilee meeting and celebration of the state lodge of the order. The attendance promises to surpass the most sanguine expectations of those in charge of the celebration. Today was given over to the reception of the arriving visitors. The regular program of the meeting will be ushered in this evening with the conferring of past sashem's and Pocahontas's degrees. The feature of the three days' meeting will be the grand parade and public celebration tomorrow afternoon.

SONS OF VETERANS.

(Special Dispatch)
San Francisco, Cal., May 12.—The fifteenth annual encampment of the California Division, Sons of Veterans, which began here today, is the largest encampment of its kind ever held on the Pacific coast. Delegates are present from local branches in all parts of California and Arizona and the Hawaiian Islands, both of which territories are embraced in the division. An interesting programme covering three days has been arranged.

30,000 ARE DEAD

Consul Ayme gives a version of how eruption of Mt. Pelee brought death to 30,000 people last Thursday at St. Pierre on Island of Martinique.

Fort De France, Martinique, May 12.—It now seems to be generally admitted that about thirty thousand persons lost their lives as the result of the outbreak of Mount Pelee volcano, at St. Pierre, on Thursday last. Careful investigation by competent government officials show that the earlier reports of the Associated Press were accurate.

The American consul at Guadalupe, Louis H. Ayme, has reached the desolate spot where St. Pierre stood, and confirms the awful story in all its essential details. From an interview with Colonel Ayme, who is a trained American newspaper man, and a correspondent of the Associated Press, the following facts were learned:

Thursday morning the inhabitants of the city awoke to find heavy clouds shrouding Mount Pelee crater. All day Wednesday horrid detonations had been heard. These were echoed from St. Thomas on the north to the Barbadoes on the south.

Cannonading ceased on Wednesday night and fine ashes fell like rain on St. Pierre. The inhabitants were greatly alarmed, but Governor Monttut, who had arrived at St. Pierre the evening before, did everything possible to allay the panic.

The British steamer Roraima arrived at St. Pierre on Thursday with ten passengers. Among them were Mrs. Stokes and her three children, and Mrs. H. J. Ince. They were watching the rain of ashes, when with a frightful roar and terrific electric discharges, the tornado of fire, mud and steam swept down from the crater over the town and bay, sweeping all before it and destroying the fleet of vessels at anchor off shore.

There the accounts of the terrible catastrophe, so far as obtainable, ceases.

Thirty thousand corpses are strewn about, buried in ruins of St. Pierre, or else floating, gnawed by sharks, in the surrounding seas. Twenty-eight charred, half dead human beings have been brought here. Sixteen of them are already dead, and only four of the whole number are expected to recover.

An Associated Press steamer was chartered in Guadalupe, near Martinique at 6:30 Sunday morning. The island, with its lofty hills, was hidden behind a huge veil of violet colored haze. Enormous quantities of wreckage, large and small ships and houses, strewn the surface of the sea. Huge trees and often bodies, with flocks of sea gulls soaring above, and hideous sharks fighting about them, were floating here and there.

From behind the volcanic veil came blasts of hot wind, mingled with ice cold air. A careful inspection showed that the fiery stream which so completely destroyed St. Pierre must have been composed of poisonous gases, which instantly suffocated every one who inhaled them, and other gases, burning furiously, for nearly all victims had their hands covering their mouths or were in some attitudes, showing that they had sought relief from suffocation. All bodies were carbonized or roasted.

STATEHOOD BILL REFERRED TO SENATE

Washington, May 12.—The statehood bill which was reported in the senate today from the house, was on motion referred to the senate committee on territories.

This committee is composed of Senators Beveridge (chairman), Dillingham, Nelson, Bard, Quay, Burham, Heitfield, Bailey and Patterson. The bill was referred without debate and no date has been fixed for its consideration. It is the general consensus of opinion here that the committee will meet some time next week and consider the bill.

The bill is not certain of passage in the senate at this session, but its chances are brighter now than when congress first met. Several prominent senators now favor the bill on the ground that all territories now within the bounds of the United States proper should be admitted to the union, and the territorial form of government extended to our outlying possessions.

In all probability the bill will be reported favorably from the senate committee, and allowed to remain on the calendar until the short session in December.

Delegate Marcus A. Smith continues to improve and has safely passed the danger point. It is hoped now that he will again be at his desk in the house before the close of the week.
